ASHISH REDHU

BACKEND DEVELOPER | JAVA • SPRING BOOT

Phone: [Add phone] | Email: [Add email] | LinkedIn: [Add LinkedIn URL] | GitHub: github.com/ARedhu

PROFESSIONAL SUMMARY

Software engineer focused on backend development with Java and Spring Boot. Hands-on project experience building REST APIs, authentication and authorization flows, database-backed services, booking workflows, and payment integration. Familiar with Spring Security, JWT, OAuth 2.0, JPA/Hibernate, PostgreSQL, automated testing, and AWS deployment concepts. Seeking backend or Java software-development opportunities.

TECHNICAL SKILLS

Languages	Java, SQL, JavaScript, C
Backend	Spring Boot, Spring MVC, REST APIs, Spring Data JPA, Hibernate
Security	Spring Security, JWT access/refresh tokens, OAuth 2.0 / Google login, CSRF and session management
Databases	PostgreSQL, MySQL, MongoDB
Testing	JUnit 5, Mockito, AssertJ, Spring Boot testing, Testcontainers (learning/implementation)
Tools & Cloud	Git, GitHub, Maven, Docker, AWS (RDS, Elastic Beanstalk, CodeBuild/CodePipeline concepts)
Additional	React, Node.js, Express.js, Tailwind CSS

EXPERIENCE

Graduate Engineer Trainee (GET) — HCLTech

Sep [Year] – Present | Embedded Systems

- Working in an engineering role at HCLTech; add 2–3 verified responsibilities, tools, and outcomes from your actual assignment before sending.

Software Developer Intern — Being Zero

Oct 2024 – Jan 2025

- Contributed to software-development and API-related work.
- Supported learners through technical mentoring; prior resume notes mention mentoring 400+ students. Keep this metric only if you can substantiate it.

PROJECTS

Airbnb Clone — Hotel Booking & Management Backend

Java • Spring Boot • PostgreSQL • Spring Security • Stripe

- Built backend functionality for hotel and room management, date-based inventory, hotel search, and paginated results.
- Implemented dynamic pricing and inventory updates, including pessimistic locking to help protect concurrent booking operations.
- Implemented JWT authentication with access and refresh tokens, HttpOnly-cookie handling, session limits, and Google OAuth 2.0 login.
- Integrated Stripe Checkout and webhook verification; implemented booking confirmation and cancellation/refund workflows.
- GitHub: github.com/ARedhu/airBnbClone

Spring Security & JWT Authentication

Java • Spring Boot • Spring Security • JWT • OAuth 2.0

- Configured a security filter chain, JWT authentication filter, access-denied handling, and authentication/authorization flows.
- Worked on CSRF protection, exception handling, and limiting concurrent user sessions.
- GitHub: github.com/ARedhu/SpringSecurityImpl

EDUCATION

B.Tech, Computer Science and Engineering — Lovely Professional University (LPU)

Graduation year: [Add year] | Add CGPA/percentage if relevant

PROBLEM SOLVING & PROFESSIONAL DEVELOPMENT

- Solved 350+ data-structures-and-algorithms problems on coding platforms (as previously reported).
- Currently strengthening Spring Boot testing, AWS deployment, and CI/CD skills.

Before sharing: replace all bracketed placeholders, verify employment dates and project claims, and remove any bullet that does not accurately reflect your experience.
